Flag: Follow up

Daryl and Nikia:

Attached is the March 2019 Butte Mine Flooding Monitoring Report. This report is being sent in partial fulfillment of the terms contained in the 2002 Consent Decree; hard copies of the report along with a compact disk containing all the graphs referenced in the report are being sent through regular ground mail. Note there are some February graphs included for sites that were not accessible last month; several sites were still not accessible this month.

Please contact me if you have any questions about the report or on-going monitoring activities.

Thanks,
Ted
